DEATH OF MRS. J. KUBIK, JR.

Death visited the home of Mr. and Mrs. Joseph Kubik, junior, on Thursday morning of last week, taking therefrom Mrs. Kubik, at the early age of twenty-eight and a half years.

Mrs. Kubik had been in ill health for several years, and the end, attributed to an attack of pleurisy, was not unexpected, and she passed away at the home of her parents, to where she had been removed several weeks ago.

She is survived by her husband and little Jimmy, an adopted son; her parents, several sisters and one brother, as well as a host of relatives. TEAMS TO PLAY DOWN FOR CRICKSHANK CUP

Chedding Blairmore Bearcats winners of the league, with which goes the Wright cup, as nothing short of a miracle can dislodge them from their position as leaders and the right to represent the Cowanest in provincial playdowns, the league executive, with representatives of all towns. Except Pincher Creek present, met at the Greenhill hotel on Sunday afternoon last, to lay plans for more hockey to fill in before the playdowns start.

The result of the parley was a series of home-and-home games total goals, between the Coleman Canadians, Bellevue Bulldogs, Bellevue Terriers and Blairmore Bearcats, competing for the Crickshank cup, set up by G. E. Crickshank, M.L.A. of Hllcrest, for competition by intermediate teams of the three Pass towns.

The result of the draw gave the Bulldogs with the Bearcats as opponents, and the Canadians with the Terriers as opponents, the first home games, the winners of this series to play off, all home-and-home games, for possession of the trophy.

Although dates have not yet been set, fans are urged to watch for these games. The competition will not interfere with the completion of the present schedule, as games will be mutually arranged by the contesting teams on such open dates as the league schedule will permit.

CORBIN HAPPENINGS

Mr. and Mrs. A. Sheppard celebrated their fourteenth wedding anniversary by entertaining a few of their intimate friends at their home on Saturday night last.

Little Fay Collins celebrated her fourth birthday on Tuesday by entertaining her young playmates.

Mrs. H. Jorgensen entertained a number of friends at bridge on Wednesday evening last. Mrs. Elliott was the successful winner of the first prize, and Mrs. J. Taylor was awarded the consolation. Among those present were Mrs. H. Jorgensen, Mrs. J. Taylor, Mrs. R. Elliott, Mrs. W. Almond, Mrs. D. Weddington, Mrs. A. Cartledge, Mrs. J. Greive and Mrs. H. Ferryman.

A large crowd of brave hockey fans defied the elements to watch a very closely contested hockey match between Coleman and Corbin on the local rink. The game ended with a tie, one-one.

Mrs. W. Sykes returned home early in the week from visiting relatives at Cranbrook.

Tammy Sanderson returned to his home here on Saturday from the Fernie hospital, where he recently underwent an appendix operation.

The first bridge drive held in the new year under the auspices of the Rebekah Lodge was well attended. Five tables participated in the contest for the prizes of the evening, the first prize going to Mrs. T. Collins and the consolation to Mrs. M. Peattie. The hostesses for the evening were Mrs. J. Barnes, Mrs. T. Collins, Mrs. A. Cartledge and Mrs. J. Dorman.

A mixture of sleet and rain coming from the north-east, with considerable drifting snow has made the highway between Corbin and McGillivray practically impassable over the week-end.

Garden Freshness—Always

MACDONALD'S

"Fresh from the Gardens"

Disarmament,—Or War?

In the month of February, 1932, there will be convened a great conference of all nations to deliberate upon the problem of how to bring about world disarmament. It will be one of the most representative conferences ever held, while its decisions will be of the most momentous character, fraught with tremendous good or ill for all peoples.

A cynic may be inclined to inquire as to the necessity for a disarmament conference in view of the fact that in 1914-1918 a great war was fought with the declared object of ending all further war. The nations which avowed this to be their object won that war. Having won, why the continued necessity for huge armaments; why the necessity for a solemn convocation of the nations to endeavour to bring about disarmament?

The truth is: War will never be ended by war. The Great War 1914-1918 was not the first one to be fought to prevent future war. We read in the works of Mr. James Branch Cabell, an erudite student of the history and customs of the South of France, of how the Duc de Puyssange in the year 1697 addressed his ten-year-old son in these words:

"Now that we have almost reached the eighteenth century, and all the nations have signed that treaty of Ryswick to prevent there ever being any more war, and people are riding about peacefully in sedan chairs, and are living in America," etc., etc.

Yet how many wars have been fought since 1697 although even then there was a treaty signed by "all" nations to prevent war?

Following the Great War 1914-1918, the nations set up a League of Nations having as its main purpose the prevention of war. Notwithstanding that two of the greatest nations in the world refused to become members of the League, it has accomplished much, but not enough. Then followed the treaty of Locarno, the Washington conference which achieved a measure of limitation of naval armaments, and finally the Kellogg-Poincaré Pact, signed by practically every nation, declaring war an outlaw and solemnly pledging themselves, each to the others, never to resort to war as an instrument of national policy against any other nation.

And yet, the nations continue to be armed camps. The so-called peace-time armies of today outnumber those maintained prior to 1914. War instruments and machines of destruction not only possess the land and sail the seas, but they dive under the seas and fly over the land. In a machine age, armies, navies and air armadas have become highly mechanized, holding in leash powers of destruction and horrors of suffering previously unsurpassed in man's imagination.

At a time when millions of men are out of productive employment, when want and suffering stalk through hundreds of thousands of homes, when practically every nation is plunging deeper and deeper into debt, billions of dollars are being spent annually to increase and strengthen these huge war machines. Nor is it the semi-civilized, least intelligent, the non-Christian nations which are the leaders in these insane and criminal acts, thus forcing civilized and Christian people to prepare to defend themselves. No, it is the nations which boast of their higher civilization and call themselves Christians who are setting the pace in preparing for another war. Soviet Russia, which claims it is setting an example to the whole world in the development of a new order, a better way in which mankind should live, is one of the worst offenders, with its government compelling the people to learn all the arts of war hand in hand with the arts of peace. The United States, far removed and immune from the century old suspicions, jealousies and hatreds of Europe, and safe from attack, leads the van in demanding a huge navy and in the maintenance of a large standing army. France remains armed to the teeth, with Italy a close second. Britain has gone far further than any nation in reducing armaments and is prepared to go much further, prepared to go the limit in fact, if other countries will do likewise.

The hope of the world lies in the success of the forthcoming disarmament conference. War will not end war; rather each war bequeaths another. Disarmament alone will prevent war; it is the sole preventive measure, and in this case prevention is the cure. Give a nation a rifle and he will not be happy or content until he uses it. Give a nation a huge army, a powerful navy, airships and submarines, and as sure as night follows the day, it will, sooner or later, make use of them.

The hopes, the prayers, every ounce of influence possessed by each and every individual should be directed to making the forthcoming conference a success, wholly and completely so. Then, indeed, will a new day dawn for all nations and peoples.

How Many?

"Now, boys," said the school teacher, "is there any question you would like to ask me about long measure before I pass on to the next class?"

"Yes, sir," said Jimmy Jones, "How many policemen's feet does it take to make a Scotland Yard?"

"Do Fish Ever Sleep?" asks a scientific article. Well they ought to with all the free river, lake, and ocean beds.—B'nai B'rith Messenger.

Canadian Grown Bulbs

Considerable Quantities Now Being Exported From British Columbia

For many years Holland has been practically the sole source of supply for Canada of flowering bulbs, such as tulips, hyacinths, daffodils and the many other varieties that bloom in May. The monopoly of this business enjoyed so long by Holland is already being affected by Canadian-grown bulbs. In recent years the bulb industry has developed substantially on Vancouver Island and in the Fraser Valley, British Columbia; so much so that it has now grown to such a point that considerable quantities are being exported.

A recent statistical survey placed the bulb acreage and production for the year in the two districts mentioned as follows: narcissi, 84 acres and 9,989,900 bulbs; early tulips, seven acres and 628,559 bulbs; Darwin tulips, 22 acres and 1,924,350 bulbs; gladioli, 58 acres and 5,599,500 bulbs; iris, eight acres and 800,000 bulbs; other bulbs, including lilies, dahlias, crocuses, 15 acres and about 500,000 bulbs. The bulbs grown in British Columbia are of fine size and quality and the equal of the best imported.

3 MONTHS OFF WITH NEURITIS

"I suffered awful pain for two years with Neuritis and Sciatica, and was off work for three months' time. After trying everything I could think of, without getting any benefit at all, I tried a bottle of Kruschen Salts. After my second bottle, I started feeling again, and I am very glad to tell you I am still working, and I am quite free from any pain whatever."—S. B.

The pains of Neuritis and Sciatica are a symptom of deeper trouble—the same trouble that causes rheumatism, gout and lumbago. They are a sign of an impure blood-stream. They show that poisons have crept into the blood. Kruschen is a combination of six natural salts, which ensure lateral cleansing and keep the blood-stream pure. New and refreshed blood is sent coursing to every fibre of your being. Neuritis, Sciatica and kindred ills all pass you by. Depression and lassitude vanish like mist before the sun.

The Modern Newspaper

Service That Is Not Surpassed By Any Other Agency

When people read their newspapers, purchased for a few cents, they seldom stop to think of the enormous expenditures necessary for equipment and other services, in order to present them with the latest and most trustworthy dispatches.

The intricate system of gathering news covers the entire world, and no expense is spared in keeping the public informed. Then, the whole world conveyed to the individual newspaper office it requires heavy expenditures for the latest mechanical devices so that it may be quickly published and distributed to the readers.

Truly, the modern newspaper service is not surpassed by any other agency in enterprise, accuracy and dispatch.—Brantford Examiner.

Guarding Marriage Rites

Increasing Laxity On Subject Of Marriage Is Noted

The Archbishop of Canterbury, commenting on what he described as the "increasing laxity on the subject of Marriage" in the Church of England, has enjoined the clergy to exercise care in authorizing marriage ceremonies and outlined a series of questions to be answered by couples before banns are published.

Clergymen, he said, should solemnize no marriage for "any person who had previously been married and divorced, if the former husband or wife is still alive." Neither, he said, should they marry any one who has not been baptized.

"Elephants" In Quake Area

Sufferers in the earthquake area of New Zealand received messages of condolence from all parts of the world, but the one that brought the greatest smile was from a soap company in Dayton, Ohio, to a Nepier firm, saying: "We are certainly sorry to learn that your plant and buildings have been destroyed by the elephants."

They summer-fallowed approximately 32,273 acres.

Too Many Middlemen

If the United States folk are disrespectful to the Canadian dollar, why should this country's business men import raw materials from abroad through agencies in that country? There are too many middlemen getting their "what's before" the ultimate consumer receives his goods. In planning to stop this business, the minister of trade and commerce is on the right track.—Toronto Globe.

Medical Expert Dies

University of Alberta Professor Is Martyr To Science

Martyr to his science, Dr. H. M. Vango, 36, professor of medical jurisprudence and assistant pathologist at the University of Alberta, died here December 29, 1931.

He gained an enviable reputation as an expert in crime detection through medical science. Blood poisoning, as the result of a slight injury to his thumb while engaged in post-mortem work, caused death. He was investigating the circumstances surrounding the death of H. C. Larsen, murdered farmer at Consort, when he became ill on December 17.

He was a native of London, England, and a graduate of the University of Alberta.

Short Paid Letters

Christmas Greetings From United States Lack Necessary Stamp

So many United States citizens forgot to add an extra one cent stamp to the envelopes bearing their Christmas cards this season that no less than 725,000 letters from across the border arrived short paid in Toronto during the holiday rush.

To avoid a recurrence of the difficulty, Toronto authorities stated recently, Ottawa is making a request to Washington postal administration to make better known the fact that it takes three cents to carry a letter from the United States to Canada.

Practical Stock Raising

Short Course Farm School May Be Established

Possibility of a new type of short course farm school in practical stock raising, conducted in conjunction with the Dominion experimental farms, was forecast by Hon. Robert Weir, Federal Minister of Agriculture.

While discussing the work being done now by the Federal Government under the bull loaning policy, Mr. Weir stated that he had in mind the establishment of short course schools on the experimental farms at such time as funds for such work might be available.

Such a course, he said, would give an opportunity to farm boys to go to one of the farms during the winter months, where he could get good practical training in stock breeding, where he could learn the value of good foundation stock.

CABINET POSTS AWAIT LIBERALS IN MANITOBA

Winnipeg, Man.—Premier John Bracken has promised cabinet representation to the Liberal Party after the next session of the legislature, in a letter to Dr. Murdoch MacKay, Provincial Liberal Leader. The letter was made public.

The premier said he was willing to give the Liberals more than one cabinet position, but did not indicate how many. At the same time he made it clear he was still holding the door wide open for a union government, representing all political groups in the House.

"While not impossible to do so," the letter states, "it is obviously difficult to make any reorganization of the government before the coming session."

"After the close of the session, however, if the Conservative and Labor parties have not accepted the invitation I extended to them, the strongest possible cabinet will be chosen and representation in it will be given to the Liberals of the province, additional to that proposed by me last September."

In first proposing formation of a union government in September, Premier Bracken planned to take one Liberal, one Laborite and two Conservatives into his cabinet. The Labor and Conservative groups turned down the union offer.

If these parties reconsider their decisions and decide to join forces with the government, "the way is to be left open to do so," Mr. Bracken's letter states. In that event, reorganization of the cabinet would take place before the legislature session opens. After the next general elections, likely to be held this summer, the premier says in his letter he will leave the question of leadership of the government—if his administration is returned—to its supporters.

"When the general election is over it is my purpose to ask that supporters of the administration shall choose who shall head the government. I do this because I feel deeply that no private feeling or personal ambition should at this time receive any consideration."

World Peace Menace

Armaments and Reparations Are Twin Difficulties

Vancouver, B.C.—The twin difficulties besetting world peace today came into being with the signing of the League of Nations covenant in 1918, and are "armament" and "reparations," in the opinion of Dr. Rev. L. Ralph Sherman, D.D., Bishop of Calgary, expressed in an address to members of the Women's Canadian Club here.

The result of the excessive reparations demanded of Germany—financial breakdown—was seen by thinking economists, but it was not popular in 1918 when the Treaty of Versailles was signed.

Police Wound Suspects

Vancouver, B.C.—Two alleged burglars were wounded by Vancouver police bullets on city streets, and eight other suspects were arrested. Police believe the arrests will clear up a number of burglaries and house breakings reported in the downtown and west end districts in the past few weeks.

Storms In Europe

Resultant Floods Are the Cause Of Six Deaths

London, England.—Storms from Portugal to Scandinavia and floods in many parts of Europe caused six deaths and distress for several ships. The British steamer Jersey City sent urgent calls for help from a position near the Scilly Islands, saying it was out of control with its machinery broken down. A motor barge sank in the Thames estuary, but the crew of three was saved.

The Grecian steamer "Alexandria" grounded two miles off the coast in Dungeness Bay in the English Channel and later was refloated.

A violent southwest wind delayed departure of the liner "Paris" from Havre, France, three hours. A fishing boat sank in a fierce gale off the Breton coast, but the crew of two was saved.

The wind had reached a force of 80 miles an hour over some parts of Great Britain Wednesday night, January 6, while the Scilly Islands were lashed by a 93-mile gale. The battleship "Royal Sovereign" and the cruiser "Exeter" went to the assistance of the British freighter "Trevaylor," which had lost a propeller and was drifting in peril off Plymouth.

The tremendous gales were accompanied by rain storms which flooded much of England, Ireland and Wales, and forced suspension of quayside and other activities in many places. A boat belonging to H.M.S. Whirlwind was swamped at Sheerness and one seaman was lost.

The harbor at Lisbon, Portugal, was shrouded in dense fog and several accidents were reported.

The wind in London was so violent that a mail van was blown over on its side in the centre of the city.

The weather bureau said the gale was one of several due to strike during the next few days. From Prague, Czechoslovakia, came reports of floods that submerged many homes and resulted in one death.

Hallestadt, Germany, reported the deaths of three persons in floods in the surrounding territory.

Considerable property damage but no loss of life was suffered in the neighborhood of Bar-le-Duc, France, where the Marne and several other rivers were in flood.

Legislative Sitings

Saskatchewan House To Open On Thursday, February 4

Regina, Sask.—The fourth session of the seventh legislature of Saskatchewan will open on Thursday, February 4, according to official word received from Premier J. T. M. Anderson.

On the same date the legislature of Alberta will open, and also the House of Commons at Ottawa. In view of this popularity of February 4 for opening legislative sittings, it is considered likely that Manitoba's House will also convene on that day, though official word to that effect is as yet lacking.

Canberra, Australia.—Through the medium of "talking pictures," Prime Minister Joseph Lyons declared the new Australian Government stands for the fullest measure of Imperial preferential trade with Great Britain and her sister Dominions. The Government would earnestly strive to make a success of the forthcoming Imperial Economic Conference at Ottawa, he added.

Mr. Lyons introduced the members of the new United Party before the cameras. The occasion was the gathering of the cabinet to formally take office.

Consideration of revised tariff schedules will be the first business of the new Australian Parliament when it assembles on February 17, it was announced after the first meeting of the new cabinet under the Prime Minister this afternoon.

The first act of the United Party cabinet was to re-appoint Claude Reading to the board of directors of the Commonwealth Bank.

DEBT ACCORD IS BEING SOUGHT BY THE BRITISH

London, England.—Indications that the British Government was seeking to form a united front, with the French for the international reparations conference to be held at Lausanne appeared at a meeting of a cabinet sub-committee.

Contrary to expectations, Viscount Snowden, of Icknesham, former Chancellor of the Exchequer, whose stand for British interests at The Hague reparations conference in 1929 made him a national hero, attended the meeting of the sub-committee on reparations.

Sir Frederick Leith-Ross, British treasury expert, who has acted as a link between the British and French Governments in discussions preliminary to the Lausanne conference, also attended.

Prime Minister Ramsay MacDonald cut short his vacation in Scotland and prepared to leave for London partly to negotiate with France over a date for the Lausanne. The British are pressing for either January 18 or 20, while the French have proposed that the conference be delayed until January 25.

Aldvik, N.W.T.—The shot fired at Constable A. W. King, of the R.C.M.P., by a crazed trapper at a lonely cabin on the old Yukon trail, missed the constable's heart by a scant inch, a medical examination of King has revealed. The injured man, cared for by Dr. J. A. Urquhart in hospital, is recovering.

Meanwhile a patrol headed by Inspector Eames is pressing forward 80 miles to reach the Yukon trail cabin to arrest Albert Johnson, who is believed to be the demented man seen tampering with Indian trap lines and who is blamed for the shooting of the constable.

The wounded officer was placed on a sleigh by his companion, Constable R. G. McDowell, and brought to Ak-havik.

Give Wrong Impression

Newspaper Criticized On Attitude Towards Schools

Saskatoon, Sask.—Daily and weekly newspapers give the child the wrong "slant" on school life, according to Dr. S. R. Laycock, of Saskatchewan University. Newspapers comment in September on the fact that the child must give up his freedom on returning to the school which the papers give the atmosphere of a "prison" and similarly in June, they are "let out" from their mythical school prison. Dr. Laycock, lecturing to a class on school management, declared that newspapers should refrain from such adverse comment.

Winston Churchill, M.P., former Chancellor of the Exchequer, was guest at dinner here of the executive council, the legislative council and the House of Assembly of the Bahamas. His excellency, the administrator, Hon. Charles Dundas, presided. Mr. Churchill showed facial evidence of his injury but appeared in vigorous health.

"The Bahamas should be the garden of Canada," Mr. Churchill stated in a brief address in which he recommended the closest relations with the Dominion. He praised Rt. Hon. R. E. Bennett, Prime Minister of Canada, as "a man of vision." The Empire will not fail to place it. It is sound at heart and the workers of Britain have set themselves to keep it safe as of old," Mr. Churchill said.

Japs Capture Port

Hulutoo Is Taken By Japanese Without Resistance

Mukden, Manchuria.—The port of Hulutoo, on the Chinchow on the Gulf of Liatum, which Governor Chang Hsueh-Liang planned to turn into a great outlet for the products of Manchuria, was captured without resistance by the Japanese.

Japanese army headquarters explained the occupation was part of the campaign to suppress banditry in South Manchuria and that the larger question of the port's future must depend on negotiations in which the Mukden Government of Tsang Shih-Yi probably will be considered heir to the equity of Chang Hsueh-Liang who was deposed as governor of Manchuria by Japanese troops.

Already, however, influential Japanese are urging that Hulutoo be included in the Japanese-controlled communications system for all Manchuria.

STRONG STEPS TAKEN TO CURB UNREST IN INDIA

Bombay, India.—The Government's strict ordinances dealing with every phase of Nationalist activity are now in effect throughout all India.

New ordinances, special decrees, covering the whole Bombay province, including the Province of Sind, outlawed 500 Nationalist organizations, including Anti-Drink leagues, spinning schools and boys' boarding schools.

All citizens were warned they might be sentenced to two years of hard labor for peaceful picketing, persuading anyone not to pay taxes, boycotting British goods or public servants, or contributing funds to the Nationalist cause.

Other ordinances, operative in all India, empowered the authorities to fine children for Nationalist activities, the fines being collectable from their parents. Collective fines may be imposed on whole villages and towns.

The authorities may make arrests, raids and searches without warrants, or order the imprisonment of persons without trial. They may control public utility services, posts, telegraphs, railroads and steamships, and exercise the right of confiscation of property. Banks, retail stores and insurance and shipping companies suffered a serious slump in trade. Nearly all Hindu stores, schools and colleges remained closed in mourning for the arrest of Mahatma Gandhi, the Nationalist leader.

As it has become a penal offence for newspapers to print Nationalist programs or any notices that might be construed as inciting, the congress followers adopted the method of writing their announcements, with chalk in huge letters on sidewalks, sides of buildings and other prominent places.

Groups of small boys have been employed by the Nationalists in many cities to parade the streets behind the congress flag and to shout such slogans as "Boycott British Goods," "Gandhi's Government is Here," and "Long Live the Revolution."

In his jail at Yeroda, Mahatma Gandhi continued to enjoy every courtesy, even being permitted contact with other Nationalist prisoners.

There were rampant rumors Gandhi and other leaders might be deported.

The Government may seize stocks of commodities from private citizens or corporations, compensating them in government bonds. The publication of false rumors may be punished by a year's imprisonment.

U. S. PROTESTS JAP OCCUPATION OF MANCHURIA

Washington, D.C.—In a broad invocation of United States treaty rights in the Far East, the United States served plain notice it cannot admit the legality of Japan's occupation of Manchuria, nor recognize any resulting regime impairing the open door policy, the nine-power treaty, or the Kellogg pact against war.

No official would forecast what actual steps might follow for the protection of U.S. interests. The terms of all of the international agreements invoked are vague with respect to penalties.

The apparent purpose was to marshal world indignation against any breakdown in the treaty structure protecting China, leaving further decisions to be made in the light of developments. Talk of immediate drastic action, including the rupture of diplomatic relations, have found no echo in official circles.

The U.S. notification, sent both to Japan and China, was made public by Secretary of State Henry L. Stimson without comment. It was said at the State department, however, that the United States had no dispute with Japan as to her legal rights in Manchuria, and no wish to intrude except as U.S. rights are affected or the anti-war treaty violated.

Aviator Penalized

American Airmen Fined For Illegal Entry Into Canada

Abbotsford, B.C.—Alvin E. Paulson, Seattle, Wash. aviator, arrested December 22, when his plane crashed while taking off at Sumas, was fined \$500 or three months imprisonment for illegal entry into Canada and failing to report to the proper authorities. He was returned to custody pending payment of the fine.

Two white men and three Chinese, one of whom was slightly injured when the plane crashed, were arrested with Paulson but subsequently were released when the white men were found to have no connection with the case and the Chinese had proved legal entrance to Canada. Paulson's five-passenger plane has been confiscated by the customs department.

Canada Weathers Depression

Is In Admirable Position To Participate In First Material Advance

Toronto, Ont.—Canada is weathering the world-wide business depression in a favorable manner and will be in an admirable position to participate in the first material advance, Donald M. Marvin, economist of the Royal Bank of Canada, says in his monthly business review.

The review points to the strong position of precious metal production in Canada during the past year and to more favorable external trade conditions created through the new commercial treaty with Australia. At the same time it mentions the volume of export trade of the country has decreased by more than one-third during the past year.

Motorists are in receipt of the schedule of license fees for this year from the motor vehicle department at Edmonton, accompanied by the application forms. Fees are \$5.00 higher this year, being raised to the figure of previous years before the reduction of last year went into effect. For the convenience of local car owners, the local magistrate, Mr. J. W. Gresham, expects to have a supply of plates on hand in the near future, and these may be secured at the Blairmore A.P. barracks.

Somebody is always kicking about the local paper not containing any news, but in nine times out of ten if we published all the news we know about these kickers we would start a riot. It is a strange quality of human nature that one always wants the low-down on the other fellow published, but the good life story about himself he would much rather have suppressed. In trying to protect the public generally the local paper is often a dud so far as sensational news is concerned.—Ferne Free Press.

We have received this week a beautifully lithographed calendar, showing various schools and public buildings in the province, from the provincial secretary of the province of Quebec, and as everything is in French, we believe we are right in this, but will need the services of an interpreter before we can tell you any more about it. Another calendar we wish to acknowledge, is from the Truro, N.S. News, and carries the picture of the international schooler champion, "The Bluenose," Nova Scotians, please don't rush.

CARD OF THANKS

Mr. and Mrs. Joseph Kubik, Sr. and family, join Mr. Joseph Kubik, Jr., and Jimmy, in thanking all who were so kind and considerate during Mrs. Kubik's illness, and for expressions of sympathy following her demise, especially thanking Dr. Stewart for his untiring services and Rev. Father Harrington for his consistent attention and helpful visits. Mass Cards and Floral tributes are also gratefully acknowledged.

A writer says a man should be master of his own home or know the reason why. Most of us know the reason why.

Civilization, as we know it, will last 40,000 years longer, says a college professor. From then on the human race is expected to show slight signs of improvement.

The interior of F. M. Thompson Company's main store is receiving a nice new coat of white paint; also the ceiling and upper part of the walls in the post office are being treated likewise. We wonder how long it will be before the hoodlums that make a practice of hanging around the post office lobby, will have the walls defaced with their non-sensical scribbles as badly as before this work was undertaken.
